## Event Overview:

Digital Transformation is making a huge impact on the Healthcare Industry around the Globe. The pandemic demonstrated that healthcare systems cannot remain stagnant and must quickly adapt to evolving needs. The pandemic has changed our outlook towards digital Transformation of Healthcare processes, however the path to achieve successful digital transformation is still far and long.

The Ministry of Health (KSA) is undertaking several efforts to make KSA a leading international destination for sustainable future in smart healthcare, through the renovation of the entire healthcare services, development of research centres and establishment of local and international partnerships.

To complement and support advancement in healthcare Digitization our “6th Digital Health KSA forum” will bring to light the Digital Healthcare advancements in the country. Leaders of the Healthcare eco- system from public and private healthcare organizations from KSA will join us to emphasize on the vital role of digital health in delivering a promising future vision; namely, delivering best-quality integrated and comprehensive healthcare system.
